Case Study Summary

Why HoshinOnline?

Barry-Wehmiller turned to HOL to automate the existing Hoshin Kanri processes across their multinational operations. Prior to HOL, planning and documentation was being communicated by email & excel. There existed no system to centralize all of the communication to monitor progress & align resources. Barry-Wehmiller was interested in establishing a collaboration platform to communicate the vision & goals through all levels of the enterprise.

“I have been using the HK Strategy Deployment process for over 20 years and, as most practitioners know, the maintenance of the Hoshin documents (i.e. – PD1, PD2, PM1) can be extremely time consuming to keep them current. The HoshinOnline application is the biggest time saving breakthrough in using the Hoshin documents that I have ever seen. I would highly recommend the HoshinOnline application to anyone using the Hoshin Kanri process.”

Dick Ryan, L3 Journey Leader

Use and impact of HOL -

- Established a single version of truth for project governance
- Global teams have real-time visibility and a systematic approach to ensure project success
- Ability to visually communicate KPI's using operational scorecards
