

HOSHINONLINE
DIRECTION ALIGNMENT COMMUNICATION

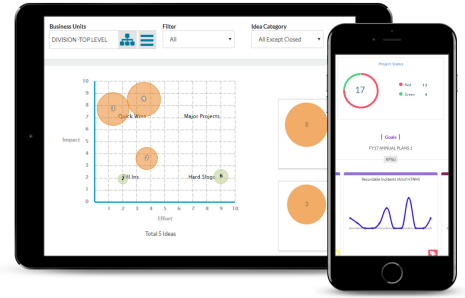

Connect your entire team to your strategy, then just execute.

Over 70% of strategic transformation and execution programs fail to meet their intended business case. The problem always stems from people, communication and alignment.

HoshinOnline is a collaborative strategy execution platform that employs the time tested Hoshin-Kanri methodology, to help businesses to define, deploy, manage and monitor their strategy across the enterprise. Connecting your entire team to your vision.

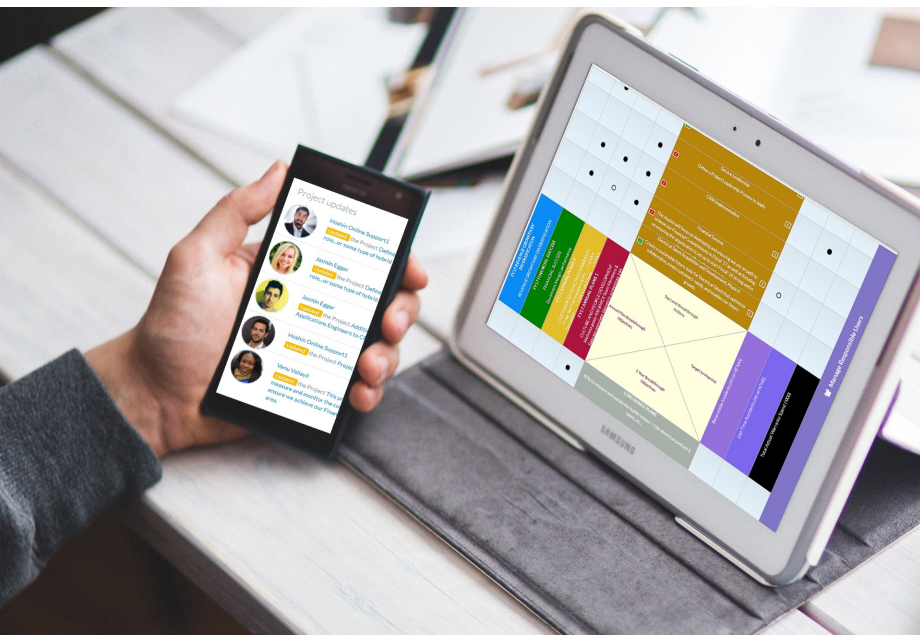

HoshinOnline provides a collaborative strategy execution and governance system that:

- Communicates your vision across the enterprise
- Monitors progress every step of the way
- Aligns your resources to achieve the vision
- Engages and inspires teams to succeed

Key Features

- Unlimited Business Units
- Ability to organize Business Units to fit your organization's hierarchy.
- Supports Objective based and Strategy based Hoshin-Kanri approach.
- Ability to define any number of KPI's at any level - Goals, Initiatives and/or Projects
- Ability to do cascading KPI's - that will roll-up the number to higher levels
- A newly designed Dashboard
- Integrated Performance Review module
- Multi-lingual (Internationalization) support across all modules
- Accessible through any device - PC Browser, Tablet and/or Smart Phone

This easy-to-use cloud based toolkit helps leadership teams to:

- Advance vision achievement, while managing daily operations.
- Adapt to market & environment dynamics
- Track key metrics and drive performance
- Foster high performance team work

Align the business around strategy execution, while giving your team members, clarity of purpose, clear priorities and a sense of empowerment.

Leading companies across different industries are using HoshinOnline as their designated system of engagement, to uphold the execution of corporate strategy.
